I am initially looking for a number of small investors of £500 each, one off investment. What you will get for this is, a free holiday for two to four people once the chateau has been fully developed and refurbished. On top of the free holiday, you will get your money back with a return of over 100% over five years. This can become an on-going investment once you have had your free holiday giving you a free holiday every year for ten.
