Philips 42" Plasma model 42PFP5532D

Standard Freeview Tuner, 2 x HDMI. The tuner is playing up and would sometimes not pick up or change channels, however this TV would be ideal to use for gaming purposes.

Screen and stand in perfect condition.

With Instruction manual and remote control (although remote control needs attention - on/off/standby button no longer works so we turn it off with the button on the side of the TV).

It is very heavy and will require two people to lift.
