Garden shed needing some TLC. Structurally sound, leaks a bit so may need re-felting. Since it leans a bit to the side there is a gap where the door and windows are but I'm sure this can be corrected when it's being put back up. There is some rot where one of the windows is. I'm giving this away for free as there is life left in the ole boy and it would be a shame to send it to the tip. I can help with dismantling but you will have to provide the.
