51 MILES FROM NEW !! Has spent most of its life in a museum, came out of museum in 2013. still has first tax disc on scooter, old and new logbooks, on the original registration. Everything working as it should, also has some optional extra's = luggage bag to go on legshields, and chrome front wheel disc. You will not find another so original and unrestored with such low mileage anywhere. it is one of the very early models from 1963, (first ones were made late 1962) 100cc 2-stroke automatic, genuine museum piece, will only increase in value. reluctant sale but i need to reduce my collection. PRICE REDUCED. £2900 O.N
