The Galaxy is a very rare addition to our forecourt here at acar2go, people tend to hang on to them and so it's not often that we're able to pick one up with such a great history as this one! Ours has had just the two owners in the five years since it was registered new, having covered little over 50,000 miles and being serviced a whole five times including one in our workshop here at acar2go which means you don't have to worry about it for another year or 12,000 miles. Probably the most important thing to mention here is that this is the TITANIUM X model, that being the absolute best of the best when it comes to these as it quite literally has everything that you could want from a car! The list of gadgets is huge, some of my favourites are the Dual Zone climate control, Bluetooth, automatic rain sensing windscreen wipers and USB connection port that will allow you to charge your phone whilst on the move! Lastly, please do not forget that this is a SEVEN SEATER and so fits well into the family car category, whilst it has plenty of boot space for the long haul with the option to fold up the two additional seats if the children want to bring their friends along. As always, thanks for looking in!
