The GSXR1000L4 offers so much real world riding potential. The engine pulls hard from anywhere in the rev range, allowing you to be lazy with gear changes or you can push hard throughout the range riding it like a GP hero. The Showa Big Piston give clear and easy to understand feed back allowing you to push the envelope with confidence. The stopping power comes courtesy of Brembo calipers which are second to none when it comes to quality and confidence. This particular machine is nothing short of immaculate. It has only covered 2654 miles from new so is barely run in. The GSXR has always looked good wearing Black and this model is no exception, especially with the chrome R badge on the fairings. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £8895
