

Remington air rifle (100 GBP)

.177 spring powered Remington Express purchased new last year to reduce our rat population and it is the bee's knees, knocks them down at all ranges and they don't get up. As new but now 'run in' having been fired about 80 times. This brilliant rifle is also fitted with superior AGS 3-9x40 Mil Dot telescopic sights to make the package complete. Bang on the power limit and deadly accurate. Straight stock so left or right handed suited. I paid £135 for the rifle and £45 for the sights so the asking price is a proper bargain. It even comes with original instructions and box. Below is a link to a U Tube review on the REmington Express.
