D-Link 2 port KVM switch / 2 x keyboards, 2 x monitors DKVM-2K Product Description The DKVM-2K 2-port mini KVM switch kit allows you to easily control 2 different PCs from a single set of keyboard, mouse, and VGA monitor. It includes a 2-port KVM (Keyboard, Video and Mouse) switch and 2 sets of built-in cables for ready connection to 2 PCs. If you have 2 PCs and need to use them at the same time, the DKVM-2K saves you the money and space by allowing you to control your 2 computers from a set of keyboard, monitor and mouse. Or, you may have a better, bigger monitor and want to connect both PCs to it, the DKVM-2K allows you to do this. 2 sets of cables are attached to the KVM switch ready for use, dispensing you of the need to prepare separate cables and connect them to the switch. The DKVM-2K supports VGA, SVGA, and MultiSync monitors at up to 2048 x 1536 resolution at 72Hz refresh rate. Support for Microsoft IntelliMouse is provided. Description â€¢ Control up to 2 PCs with a single USB keyboard, USB mouse, monitor â€¢ Listen to Music From One Computer While Working on Another TWO SYSTEMS, ONE SOLUTION Control two computers using one monitor, USB keyboard, and USB mouse with D-Linkâ€™s 2-Port USB KVM Switch with Audio Support (KVM-221). The KVM-221 allows users to effortlessly control two systems without having to buy additional computer peripherals. It is ideal for the home office where business files are kept on one computer and personal files on another. With the built-in audio support, you can also share a set of speakers between two computers. Listen to music on one computer while having quick access to resources on the second computer! You can even dedicate one computer as a music server. MAXIMIZE YOUR DESK SPACE Since the KVM-221 manages two computers using only one monitor, keyboard, and mouse, it frees up your desktop space, minimizing wires and extra devices that would be needed otherwise. In addition, the KVM-221 is compact in size, making it fit into virtually any workspace. EASY INSTALLATION The KVM-221 is easy to install and even easier to use. No drivers or software is required. This is a true plug-and-play device that will have you working in minutes, quickly. Once connected, you can easily switch between the two computers with the front panel â€œselectâ€• button or keyboard hot keys. Simple to install and easy to use, the 2-Port USB KVM Switch with Audio Support (KVM-221) is the ultimate solution if you are looking for a dedicated multi-tasking a professional working from home, or youâ€™re simply looking to add another computer to your work station. WHAT THIS PRODUCT DOES The D-Link 2-port KVM Switch with Audio Support (KVM-221) allows you to control two computers with a single monitor, USB keyboard, and USB mouse. Use the â€œselectâ€• button or keyboard hot keys to easily switch between two computers and perform multiple tasks. Unclutter your desktop and simplify your workspace with the compact D-Link KVM-221 KVM
