I have owned this motorcycle for almost 10 years. It has been well maintained. I was hit in the rear in November 2011 and the insurance company wrote it off due to the cost of the parts mainly due to the exhaust being badly scratched. I have since replaced it with a stainless steel one. The rev counter, headlight rim and indicator still show signs of the accident. It has a new rear tyre 22 miles a newish front tyre. chain and sprockets 4k miles ago and in the last 3 years I have replaced the battery, stand switch, clutch switch, battery, radiator and rear shocks with Halgon ones. I have just changed the oil and filter. 2 keys I will be sad to see it go. 07894350340 078943503...(click to reveal full phone)
