

# Specialized Pitch 650b 2015 large hardtail mountain bike Abus D-Lock (295 GBP)

Location **London, London**  
<https://www.freeadsz.co.uk/x-353954-z>

Great condition 24 speed Specialized Pitch 650b Mountain bike with trigger shifters, ergonomic hand grips, extra wide handlebars, custom ergonomic saddle & post, front and rear mechanical disc brakes. Originally bought for £425.

Comes with magnificently bright front and rear lights, a virtually indestructible Abus D-lock & loop kit (originally bought for £40) and the official documents from Evans given at the time of purchase.

## Product Description

Weight - 14.51 kg

Dialled for the trail the Specialized Pitch is great mountain bike for everything from meandering terrain to flowing singletrack. All new for 2015 the Pitch is built around 27.5" (650b) wheels and offers reliable off road performance.

The A1 premium aluminum frame, (the same as found on the sport and comp models) is formed and butted which makes it strong and lightweight. The handling is nimble and riding position is neutral, great for riding off road and is comfortable on the road too.

27.5" wheels are faster rolling than the old 26" mtb wheels and riding over rough ground is easier. The

fork offers 100mm of suspension travel which help to smooth out bumps on the trail and the disc brakes give a lot of performance in all weathers.

A large hardtail like the Pitch is great for commuting, covering the week, and playing at the weekend.

Tyres: Specialized Fast Trak Sport, 40TPI, wire bead, Flak Jacket protection, 650bx2.0 Front Specialized Fast Trak Sport, 40TPI, wire bead, Flak Jacket protection, 650bx2.0 Rear

---

Seatpost: XL comp, matte black with a similar design to the handlebars, paid £30 for it because the original was stolen. Excellent quality with an adjustment system better than the previous. Also has measurement markings for the height of the seat. Removed quick release to prevent this happening.
