Bentley is a 16 month old male neutered pedigree (no papers) teacup chihuahua. He is very small and because of this quite timid. We have to rehome/sale him as we were told he is good with cats and young children and he isn't. He chases and barks at cats and he has little tolerance to young kids. He is brilliant with older quieter children and adults and other dogs once he gets to know them. He would suit an older family or a couple. All we are asking is for what we paid for him.... so £350 ono. He really is a lovely puppy, well trained in the basics, fantastic on the lead. Quite good off the lead as long as he doesn't get spooked, if he does he tends to bolt. Crate trained at night. We are gutted it's not working out and this is a reluctant sale, but at the end of the day our cats were here 1st and it's not good that my children are unable to go near him without being growled at.;
