The Suzuki RV125 Van Van is one of only a few 125's that is actually manufactured in Japan. The build quality on these machines speaks clearly for itself. They really do age very well. This machine was sold to its one lady owner by us. We've maintained it for her since new. As such not only does it have a full main dealer service history stamped in the book but it has all receipts too. In addition to this it is fitted with a Givi top box for added versatility. We have all the original books as well as both original keys and both keys for the top box. If you're looking for a well maintained 1 owner machine, then look no further. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £1995
