MCN said "After years of gentle evolution Suzuki has gone to town on its 2011 GSX-R750. Weighing in at 190kg, fully-fuelled and ready to go, it's a massive 8kg lighter than the old model, giving the 148bhp GSX-R750 a mouth-watering power-to-weight ratio." The 750 really is the perfect combination of power and handling, a 600cc chassis with only 2 bhp less than the original R1! This absolutely stunning machine has only covered 6002 miles from new and has clearly been a cherished possession. It has a full service history and is fitted with a Datatool alarm, which includes the certificate. It has both fobs for the alarm and both original keys. All books are included in the sale as is the original tool kit. The bike is largely standard, though it does have an R&G tail tidy fitted as well as paddock stand bobbins. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £6495
