Honda Accord VTEC SE , 2.0ltr , Manual, Drives really well , Moted till June 2017 and its very clean inside and out , the alloy wheels are in very good condition , it has Air con and is super cold , also it has Power steering so it really light steering and cruise control for motorways or driving long distances, its not bad on petrol, but not the cheapest but i guess if you want a powerful fast car "this is for you" , It Starts up first time every time and has only 5 former keepers on the log book , in 2014 it has had a new lambda sensor fitted costing 167 pound and a service costing 164 pound, it also has a sun roof good for this hot weather if you don't want Aircon on, also has a key fob at a push of a button the doors lock and open as well as central locking , swaps are welcome with cash my way this is a solid car and they don't usually go wrong call for viewing or texts welcome;
