Autoregas is a Chandlers Ford based mobile aircon recharge service. We offer this starting from only £40. We do not offer a cheap top up service offered elsewhere, a proper service ensures your system is neither undercharged or overcharged and replenishes refrigerant gas and compressor oil to manufacturers recommendation. Services on vehicles that require R134a refrigerant only, this is the most common in today's cars, vans and trucks. All makes and models, please enquire.

System check and visual inspection
