mens all stainless steel watch bracelet. Ref: 62510 H. Watch head fitting is 20mm. This example is from 1995, with a 'W' date code. Only nominal wear throughout - and all the links are fine, and still tight. Clasp is excellent, and snaps shut perfectly. For all the steel Rolex Datejust models, between 1989 - 2001, i.e. the 16000/16200/16220/16234 series. It has 21 links, and is all ready to fit to a vintage all steel Rolex Datejust. Completely original, and correctly signed; it has lain unused for many years, as my original Datejust watch was sold years ago, and was fitted with an original Rolex crocodile strap, which I also loved! Please be advised that the watch head end-links shown in the images are not included - but the ones you will have from your old bracelet, along with the spring bars, shall be correct of course for your watch. The RRP today for a new Rolex Jubilee steel bracelet would be around 950! Getting much harder to source good vintage ones now, and especially in this condition. Viewing recommended, and could/can post afterwards, if requested. Save yourself a packet on buying new. Serious enquiries only in complete confidence by telephone please. This is a genuine private sale. Thanks for.
