

NEC MultiSync LCD5220-TMX4 52quot 2x2 LCD TileMatrix Video Wall (2,499.99 GBP)

Location **North, Lancashire**
<https://www.freeadsz.co.uk/x-367628-z>

New other 3 new and unused 1 used for 20 hours not in original packaging. The MultiSync LCD5220-TMX4 - 52" 2x2 LCD TileMatrix Video Wall Solution. This is a 2x2 array of 4 x 52" LCD displays.

Each display features a large size, high-resolution, and impressive industrial design.

Video Wall

This array of four displays, arranged in a 2x2 pattern, is an ideal solution for creating a video wall. The displays feature thin bezels, insuring that the borders between them are minimal.

Widescreen Aspect Ratio

Each monitor features a 16:9 widescreen aspect ratio. This gives you more horizontal viewing space than traditional 4:3 monitors, allowing you to work more easily with applications and documents in a side-by-side fashion. It also matches the native aspect ratio of HD video, making it an appropriate choice for HDTV and HD digital signage.

Wide Viewing Angle

Each monitor features a 178° horizontal viewing angle and a 178° vertical viewing angle, making it easy to view the displays from almost anywhere.

High Contrast Ratio and Brightness

Each monitor features a high 2000:1 contrast ratio with a brightness level of 700cd/m², giving you bright and clear image playback in bright environments.
