If you are looking for a sports tourer that is capable of everything from everyday commuting to fully loaded touring the Triumph Sprint 1050 GT should without doubt be in your top three to look at! The Sprint was completely revised in 2010 making it one of the best sports tourers out there, with a revised chassis, longer swingarm and steel subframe the GT becomes uberstable when fully loaded, with 117 litres of luggage, a pillion and 20 litres of juice. What's more the Sprint also been given a lower seat height, a wider, more comfortable pillion seat, built in grab rails on the topbox mounts and revised footpeg positions making it one of the most comfortable bikes to tourer with. So the question is have Triumph hit the nail on the head well that's for you to decide but my personal opinion is, yes they have! This well looked after Sprint is exactly that with a bundle of service history, loads of life left in both tyres and it comes with our 12 month warranty and roadside assistance. This is a stunning looking bike and one not to be missed if you are looking for the complete touring.
