

# Brother LW800ic desktop publisher typewriter (12 GBP)

Location **South East, West Sussex**  
<https://www.freeadsz.co.uk/x-368081-z>

Has built in colour printer plus floppy disk slot for saving documents. Great old school simple word processor or typewriter with pop up screen. Its great for typing simple documents or keeping databases.

Menu has several options; Word processing, Address book, File management, Graphic art print, Frame print, Disk application. You can make files compatible for any PC.

Would be great for student or child wanting to learn to type or as introduction to computers.

Its been stored away & not used for a while. As such the ink cartridge has dried up & probably needs replacing. Or maybe just refilling with ink.

These cost hundreds when new originally. This is still in really great condition and I dont know of any issues besides needing new ink. Comes with user manual, power lead and one floppy disk to use. size: 40(w)x42(d)x11(h)
