A wonderful treat for the body - be Summer ready, girls! Hot & Cold Stones Massage for LADIES or Gentlemen. Using a full range of special Basalt stones, imported from the mountains of Peru, Thermotherapy is an ancient and effective treatment that works in harmony with the body's energy. Its therapeutic benefits can be up to 15 times more effective than an ordinary massage. COLD STONES used alternately with HOT STONES can noticeably reduce cellulite and tone muscle. Remember when Geri Halliwell reduced her body fat through a Hot and Cold regime and totally transformed her shape? When the body is subjected to heat, the blood and the lymph moves to the surface of the skin in order to keep the inner organs cool. Alternatively, when the body is subjected to cold, the blood and lymph moves in greater volume to keep the inner organs warm. So, by heating then cooling the body several times in succession we create movement and a pumping effect within the body. As well as the detoxifying effects, it also contracts the skin pores and increases the tone and elasticity over time. Summer Special - £50 for a dedicated 45 minute treatment or pay for a course of 5 sessions and receive the 6th absolutely FREE. A course of at least six treatments is advised in most cases to achieve a noticeable improvement.;
