High-power Trio-Kenwood KA-949 amplifier plus GE900W dual graphic equalizer (165

South East, West Sussex Location https://www.freeadsz.co.uk/x-369218-z

Both in very good cosmetic condition. The KA-949 amplifier outputs 110 watts per channel into 8 ohms and the GE900W 9-band per channel equalizer has LED output meters and can be used conventionally or allows you to record onto 1 tape deck using the left-hand equalizer at the same time as recording onto another tape deck using the right-hand equalizer. Both top-of-the range midi components in 1986/7. Key features for the KA-949 - 110w/ch into 8 ohms; takes 2 sets of speakers; inputs for turntable, 2 tape decks, CD, tuner and front AUX (for iPod, MP3 player etc.); accepts moving magnet or moving coil cartridges etc. Key features of the GE-900W - spectrum analyser display for left and right equalizers; EQ range switch +/- 6dB or 12dB; accepts 2 tape decks for use with IDRS (Isolated Dual Recording System). See photos of detailed specifications from the manuals which are included. Happy to demonstrate.;
