Caravan also has hot/cold water. Can simply heat water by gas or electric by using the inside switches. Also heater works on gas as well as electric very easy to work and heats up pretty quick. You have blow air heating as well which is fitted all the way through the caravan which gets the heat all through the van in a short space of time.

This is a single axle caravan, easy to tow, tyres are good too.
 Has the paperwork and the manual to help get you started.
