Great first car or a little run around. comes with a full years MOT, two brand new headlight clusters, spare set of windscreen wipers, a few spare parts as i thought they needed changing, new radio (I also have the old one if you would like this), 1.3l petrol engine, full mot history and most service history. I have never smoked in the car and no pets have ever been in the car. only one advisory on the MOT which i understand is a very easy fix, however as I have a have a new car this is not a priority to me. If you have any questions please email me or text me. £750 or near
