

BSA A65 Flat Tracker 1971 (5,495 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-369577-z>

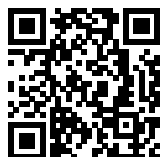

Registered June 1971 this A65 Thunderbolt was converted to this Flat Tracker styling a few years ago. The original matching number engine had the bottom end rebuilt by SRM, it was also fitted with a new head, barrels and pistons and had a Hayward primary belt drive fitted with a modified clutch and an external oil filter. It is also fitted with electric ignition, and has just had two new concentric carbs fitted. Running through the custom made Jemco Flat Tracker pipes the performance of this bike is 'quite lively !' and the sound absolutely glorious. The frame has been powder coated, and the alloy fuel tank custom painted as well as the front forks rebuilt and stainless wheel rims and spokes fitted front and rear. Having previously been registered in the Isle of Man the bike has been re registered here in the UK and is supplied with a new MoT and the UK V5C logbook along with some bills for parts, a built sheet, BSA dating cert. and workshop.
