NOTO IT Solutions has a great experience in customized Taxi App solutions and have an already made bespoke script for Taxi application – just like Uber or Ola. We have skilled developers, who can moderate the script for Native applications – Android, IOS and Windows or for hybrid applications – PhoneGap, etc. as per your choice. We offer unique features like – offline GPS monitoring to monitor the driver's position and intimate user through SMS and through the application itself. Our replica application has three phases of development like: User Phase Driver Phase Admin Phase To know the detailed flow of the application, Contact Us Now: Vipin Mathur Skype -> noto.team2 www.notosolutions.com INDIA (+91) 141-4107496, (+91) 9829418959 (What's)
