Fed up with struggling to cut your garden hedges with a wobbling stepladder? Well here's what you need - a quality, extendable platform ladder from Henchman! It's very stable and can extend up to a platform height of approx 5'6". The platform itself is 22.5" deep and 20.5" wide, providing a safe base for cutting without the fear falling off or into the hedge. It's also good for cleaning caravans, camper vans, conservatories, etc. It is in excellent condition and we are only selling it because we don't need it now as we have recently moved and no longer have 100' of hedge that was 9' high and 6' deep to cut twice a year! This ladder made a hard job so much quicker, easier and.
