History Before: Previous owner was an elderly lady who did only 52 miles in this car, (from new) pretty much delivery mileage really, before she had a stroke, and I bought this car off her family. History Now: currently has over 15,000 miles on the clock. It has not been involved in any accidental damage nor had any other work done to it. Service & Warranty: First services was at 11,000 miles by Vauxhall. Manufacturers warranty expires 16th January 2017. Price: Retail price of this new was: £11,145. There is no finance owing on the car. Valuation: In my pictures I

have included two on-line valuations (from CAP and What Car), dated 12th June 2016. This is in a bid to help facilitate making a realistic offer and wasted time. I want to see Reason of Sale. However, I intend to keep two cars and will probably hang a tag but if any other car sells, I will so. I think this is a strong point that this is not a dealer sale. If the other Car cannot be moved in B6900, I will accept a V5 for Section 2.
