His codename is Condor! In the next seventy-two hours almost everyone he trusts will try to kill him. Be careful who you trust. Robert Redford and director Sydney Pollack teamed up for their third collaboration on *Three Days of the Condor*, a sinuous tale of deceit and corruption, as well as one of Hollywood's finest conspiracy thrillers of the 1970s. Redford stars as Joe Turner, a junior analyst in the C.I.A., scrutinising published texts from around the world for coded messages. But once he discovers an unusual anomaly, his own existence comes crashing down, with every error carrying fatal consequences. Taught and engrossing, with astonishing modern-day relevance, and fabulous supporting turns from Faye Dunaway, Cliff Robertson, John Houseman and the great Max von Sydow, the Masters of Cinema Series is proud to present its first ever home video release in the UK in a special dual-format edition. SPECIAL FEATURES including: New high-definition presentation, Stereo and 5.1 soundtrack options, English subtitles for the deaf and hearing impaired, Original theatrical trailer, PLUS: A 32 page booklet featuring a new essay on the film by critic Michael Brooke, an extensive interview with Sydney Pollack and archival images. Brand new and sealed. ;
