BALTAR

WE LOVE MAKING RECORDS It's no secret. Our team are absolutely nuts about recording and mixing. The perfect mic placement on the snare drum. The sweetest reverb. The...well you see what I mean. With 35 years of mixing experience between our mix aficionados, we will get the sound from your head to the world wide web, exactly as you had originally intended. Our dedicated mixing and mastering engineers will use every technique and trick in their power to get your tracks sounding as great as the next commercial master out there. Album/EP Recording Our passion is music. We have all lived and breathed it as long as we can all remember. We have carried that same passion into our record production and it shows. Whether you are a tech metal band or an acoustic jazz fusion ensemble your music will always end up sounding like it should. Like you. Sure, if you are a hip hop band we may have a helping hand in getting that 808 to kick in a bit harder, and if you are a folk artist we may use our mixing powers to deliver a song from the heavens, but it will always still sound like YOU. Please call or email us with a detailed spec of who you are and what you wish to accomplish and we can will do our best to accommodate you. Online Mixing/Mastering Services Over the last few years the internet has changed everything, including how most studios operate. We have been offering online mixing and mastering services over the last 4 years and we are now at a point where we nearly get as much online work as we do in our studio. If you would like us to mix your tracks just send us the stems that have been recorded and we will get to work. Send us an mp3 stereo file as well as the number of stems to click to contact so we can give you a better idea of a quote. If it is online mastering you are looking for we offer a flat rate of £50 a track with a discounted rate for multiple tracks. You will receive 2 versions of the master upon completion - The standard master plus a version with a little more dynamic range - so that you can choose for yourself.

Artist Development We have 10 spaces available this Summer for artists who wish to expand their music and take it to the next level. Our program will have worked with artists from all over the world, the UK, and the US. We have a talent, and a lot of success stories as well as working with local record producers and having songs played on the UK and US radio. On top of that we have also been heavily gigging for over 30 years. Contact us and let us know what you want to achieve.

This is a service that is extremely popular so entry onto the course is through an audition/interview process at Screen Studios in South London. The sessions are based solely on weekends and evenings on week days between 7 and 10pm. Day time sessions can be booked at special request.

For the development program you must:

Have a good voice. It doesn't have to be perfect but as this is a serious opportunity the voice has to be

encouraging from day 1.

A high amount of drive and dedication - you will be doing the 2 hours on a weekend but you are expected to work on your music on every day between.

Some instrumental ability is a big plus, and if you are not able to play an instrument some basic guitar tuition will be made a part of the course.

Topics you will cover include

Songwriting and lyric composition

Cover song interpretation and recording

Vocal and instrument training (if applicable)

Modern arrangement and form structures

Performance Skills

Live Video

Creation of all and any internet sites to promote yourself

PR Advice and execution

Finding your own voice

Specialist industry advice from those who have been there and done it!

Advice on booking gigs and making a great first impression.

Music Video Services There's more to the music industry than the music. We know, crazy right?? But after 35 years of plugging away at the music industry we know that the music isn't the only thing that will get you noticed. Our high end video and photography services can help you bring another level of professionalism to your act and together we can make sure you have the best possible chance of securing the gigs and press that you want! Check out www.baltarrecords.co.uk for examples of our previous work. Pricing and Additional Info can be found at our website or call 07585777045 075857770...(click to reveal full phone number) /07798622639 077986226...(click to reveal full phone number) for more details. Having a great front end and some great mics is simply not enough. Nor is having every bit of useful software out there. Thankfully we have those, but we are the only studio to offer in house session musicians as part of the costs. So whether you want to track some vocals to a backing track, or work with us to produce a single or even an album get in touch and give us a call today. 07585777045 075857770...(click to reveal full phone number) /07798622639 077986226...(click to reveal full phone number)
