Peugeot 206, 1.4 sports!
 10 months MOT - Due April 2017.
 Just had the following replaced ...
 - Head Gasket
 - Cam Belt
 - Oil Pump
 - Oil Filter

Mileage is 95,142 although the mileage is high this is a great runner.
 Mileage is only high because of work related travel.

It does have a small dint & scrap to the rear left hand side but is only cosmetic damage.

The oil seal & ABS sensor needs replacing, this has been quoted at around £30. I've just not had it done as it doesn't effect the driving & I have brought a new car.

Reason for sale - Brought a new car.

Taxed to March 2017.

Looking for a quick sale due to having the new
