Here we have an immaculate Kawasaki 2014 KLZ Versys 1000. With so few miles on the clock, the bike is only just run in. Only one registered Keeper from new. The bike is in untouched/standard condition, just as it came out the crate. The paintwork is in great condition and has been fully polished by our on-site valet. This bike is the latest design for this model. The bike comes with a factory fit immobilizer, this stops a cloned key or screw driver being used to start the bike. This bike is fitted with an Anti Lock Braking System (ABS), giving you more confidence while riding. This bike is also fitted with Combined Braking System (CBS) giving a percentage of rear brake when you use the front brake giving you more stability on corner entry. The Bike comes as standard with Traction Control which allows for better acceleration control and cornering stability giving you confidence when riding. This bike comes with selectable power modes. Meaning you can flick between different fuel maps while riding changing power delivery to suit different riding conditions. This would make an excellent commuter bike. Also fitted with a center stand to make washing and maintenance a whole lot easier. The bike comes with a set of lockable Hard Luggage, great for those trips away. A Top Box is also fitted to this bike, very useful for commuting to work or carrying your waterproofs in case the rain comes. Fitted with hand guards, these really are a blessing on cold days. Top spec engine protectors have been fitted just in case the worst should happen. Saving your panels and wallet from taking a battering. A tank pad has also been fitted to the bike, these protect the paintwork from rubbing with the riders jacket. This bike has a digital instrument display making it quicker and easier to see your riding information while riding. A fuel trip computer comes with this bike, it tells you your average MPG and also many miles you have left with your current fuel. The bike has been HPI checked
