The ultimate sports car. Drives and handles like a new one. This Brz has more power than a standard one. I have remapped it and put a cobra exhaust from the cat back and k+n panel filter. This is a head turner. If you want to get noticed on the road this is the car for you. Body condition inside and out is very good. I mostly drive the Brz on weekends as I have a 4wd I drive through the weekdays. That's why it's low miles. Years mot and full service history. This is the cheapest on the net for the condition and upgrades. Wheels and tyres are like new. I'm getting around 34 mph that's good for a sports car, private plate will be sold with the car.;
