Location **Yorkshire and the Humber, West Yorkshire**
<https://www.freeadsz.co.uk/x-376026-z>

Please find for sale this beautiful Sam Atlantic English pool table. It is used but in excellent condition - only reason for sale is lack of space. This retails brand new at £3,100 just for the pool table.

As well as the pool table I am including:

- 2 x sets of pool balls - 1 marble set and 1 aramith set
- 2 x cloth brushes
- Silver cup billiard chalk
- 2 x phoenix pool cues
- 1 x short cue
- 1 x cue rest
- 1 x cue rack
- 1 x triangle

This is for collection from Wakefield WF1. Happy to arrange a viewing please contact me

Happy to consider an offer but sensible offers only please. Any questions, please ask

Further product information:

Sammy's, a contemporary design allied with the rugged durability of solid ply and aluminium extrusion, makes the Atlantic the most desirable choice for English pools. The aluminium extrusion trails hug the channels along the frame, which for maximum ball response and consistency, is laser cut in stripes. Whether Allegro marble or a wide range of standard and custom formicas, the Atlantic delivers ProActive cushion response on a true championship table. If you take your pool seriously, play on a serious table. Play on SAM Atlantic. Atlantic tables have been used at the Annual BAPTS pool final for more than 15 years. The UK's longest running, largest and most prestigious, pool pool championships.

English pool was conceived as a bar game that borrowed the skill and tactics from the snooker that British players were familiar with, played on a smaller table suitable for British pubs and bars. Innovative:

at the time, red & yellow balls are now synonymous with pool in the UK and the game has developed into a serious sport in its own right with a nationwide network of leagues and tournaments played to professional standards.

Featuring: Aluminium top rail with ProActive cushions, plywood cabinet, slate bed, easy level system, cushioned ball return.

ProActive Cushion system - SAM Pool tables feature totally aluminium extruded top frames. All top frame components are bolted metal to metal reducing movement and wear, and the frame fits more accurately to the cabinet. The real genius of the ProActive system is in the cushion fit. Cushions are profiled to match the aluminium top and secured by a full length plate. Standard 10mm bolts fit snugly into the extrusion and give consistent cushion response along the whole length. The simple fitting routine needs no special tools. The cushion can never be fitted at the wrong height dispensing with the need for metal cushion strips that are unsightly and disturb the players' bridging action. Top players have likened the ball response achieved to that of a steel block snooker table. ProActive cushions provide the most accurate and consistent cushion response ever achieved on any single piece slate pool table and will delight seasoned players of UK 8 ball and 9 ball American pool devotees.

Ply cabinet - Plywood construction gives SAM tables great strength and durability, without excess weight. Less susceptible to damp conditions, easier to repair when damaged and harder wearing at joints and fixings than the more commonly used MDF.

Easy level - SAM tables are a piece of cake to level with just a 13mm open ended spanner. No lifting of the table required at all so no help required and greater accuracy can be achieved with your spirit level.

Slate bed - There is no substitute for slate when it comes to a level playing field. A natural material hewn from the great mountain ranges of the world, diamond honed to perfection by SAM, stored and prepared in just the right environment to ensure perfect level when.
