We have for a sale a Leica Digital Camera V-Lux 4 in new condition still in the original box with all the manuals, CD, attachments and original connections.

Bought in Switzerland at a Leica shop in October 2013 for a project but never used it, it has been registered with Leica in October 2013, I have also received the Light room software code from Leica which could be downloaded if required. We can send the serial number if required.

The listing is for the Leica camera and all the attachments and have included 3 special Leica compatible filters for close up and the Leather case (these items were quite expensive) but will include in the listing and please the pictures for everything you would get. If you do not want the Filters and the Leica Leather case, you are at liberty to make an offer only for the camera without the accessories should you wish.

What is included on this listing are:

- The Leica V-Lux 4 Camera
- Original attachments in box
- Original Leica CD and manuals
- 3 Leica compatible filters for professional photography (as seen on pictures)
- Luxury Leica Leather case (as seen on pictures)
- 16 GB Scandisk SC card

I charged the battery last night and took a couple of shots and also used some of the functions to check the camera and even took a few perfect pictures and some of the functions were used. The camera is in MINT condition and you would be able to see the camera and the leather case and the filters and the CD and the manual and the software code. I will be happy to hand deliver it free of charge if you are within the London area, lets say 20 miles from where I live. If not we can agree to a small delivery charge depending on where you live so you can see the camera before you buy. If not happy to post it well packed "Special Delivery Royal Mail" with insurance but cannot take responsibility should anything happen in transit. However, you are welcome to collect in person.;
