This is a beautiful looking car with a lovely blue metallic paint that glistens in the sunshine and looks different colours in different lighting. I get lots of positive comments from people on the colour of this car. Car drives well and is the Quattro version with 225 BHP. It has full black leather interior, heated front seats, climate control, Bose speaker system with multi change CD system. Everything is original and the car has not been modified. Car comes from a non smoking home and no pets. The condition overall is very good. There are a few small scratches and a small dent in the drivers door (courtesy of a kind person with a supermarket trolley - see final picture in gallery) from normal wear and tear of a 13 year old car. Recently serviced in April 2016 and MOT till Jan 2017. It is used daily and hence the mileage will increase slightly - currently 113,595. Any questions please ask and thanks for looking Paul;
