

## Blackstar amp, cab and footswitch. (450 GBP)

Location **North, South Wirral**  
<https://www.freeadsz.co.uk/x-376417-z>

Absolutely fantastic amp from Blackstar, the ID100.

It has TVP (true valve power) which I can assure you it sounds just as good as a proper valve amp, just as rich and warm, but none of the hassle (blowing/changing tubes, waiting for them to heat up) just turn on and start playing. You'll have access to 6 variations of tube emulation - again, I cannot stress enough how well this is executed - and 6 sound settings (clean, crunch, overdrive etc etc) you can also give yourself a more American or British tone depending on where you set the relevant knob. The speaker cabinet is the matching ID412A, which comes loaded with celestial speakers, and it sounds truly majestic.

The buyer of this amp will not be disappointed, it is an exceptionally versatile creation.

Also, if you download the Blackstar app on your computer (free of course) you will gain access to all 128 pre-sets, or you can download other folks settings and save them to your amp. Lastly, I have included the Blackstar FS10 footswitch, one of the best built footswitches I have ever used, I simply cannot fault it. I'm selling for genuine reasons (reasons being, my love for bikes out weighs my love for music) so the funds from this will go towards that.

If you're interested please send me a text on 07504929334 075049293...(click to reveal full phone number) or send me an email - click to contact and I'll get back to A.S.A.P. Also, just to mention the amp/speaker/footswitch are only 3 months old. The price is £450, no offers. This is a lot of bang for your
