I have many years created unique and special gardens for people around the Brighton area. I can transform even the most overgrown neglected space into a whatever kind of special outdoor space my clients desire - I work as closely as possible with clients to ensure the vision I create is as much theirs as mine, including guiding people through plant selection, plant care, maximising use of space and adding any interesting quirks to make their outdoor space stand out. I am also experienced in maintaining gardens, allotments and other outdoor spaces to a vey high standard and have a team of workers available to ensure work can be completed very quickly if necessary. High standards and hard work are guaranteed as previous clients would be happy to confirm! Recent projects include transforming former waste yard of an outdoor space into an Alice in Wonderland style garden retreat and redeveloping a neglected allotment on the outskirts of Brighton. If you are interested in taking advantage of a high quality but affordable gardening service, please don't hesitate to get in touch. ;
