Great design features can be found throughout this Adria, we particularly like the rear of the interior as it has a very desirable option of two permanent single beds that easily convert into a double bed. The rear bed area sits neatly over the 'garage' area. Garages are great as it ensures your interior is left clutter free! The lounge area offers lots of flexibility with a single dinette with seat belts, and a single side seat which, with the cab seats swivelled creates a lovely area for relaxing and entertaining. Central kitchen and washroom with separate.
