The Garden Builders was formed in 1998 and is based in Fulham, south-west London. The office is set within an attractive showroom/gallery, which showcases the best in exterior garden lighting, contemporary garden furniture, bespoke water features and desirable exterior sculptures. The business to date has specialised in the design and construction of mainly private, domestic gardens both in the UK and overseas. We also work for a variety of established and younger, up-and-coming landscape architects and garden designers, interpreting their designs and creating beautiful gardens for their clients. The Garden Builders has gained a solid reputation within the industry for producing well constructed gardens with a keen eye on detail and for running well managed schemes that are completed within budget and on time.
