Availability: In Stock 5 Person Hot Tub For Delivery Time Options call us today on 01212774874 012127748... (click to reveal full phone number) The 3500 Series plug and play hot tub featuring 4 seats & lounger & LED mood lighting. This hot tub also features 39 jets for hydrotherapy and a dedicated spine chair for back massage. FREE Cover and Steps with every Hot Tub! Description One of the latest additions to the H2O 13amp range is the 3500 series, you won't find many 13amp plug and play spas this size on the market. We think this spa is perfect for larger families who want the convenience of just plugging in and away you go. No electrician required however, we do recommend a full install by a H2O engineer so that it is wired in correctly to the main control unit. So what is difference compared to the 3700 series? Well first of all it's 30cm longer, allowing for a bigger footwell and creating more leg space for users. It has 39 jets varying with Hydro and directional jets, offering an amazing hydrotherapy experience. Its dedicated spine chair works both sides of your spine to loosen up any back tension or muscle tightness, with additional upper back and rear shoulder jets. Each individual seat has been designed with a more deluxe jet formation than the 3700 series, offering a single lounger and 4 seats it is also more spacious. This spa has a dedicated step making getting in and out of the spa a breeze, this is also handy to use as a cool down chair taking the 3500 series to 6 per capacity. Installed with the same 3hp pump as the 3000 and below series, you may think this spa is under powered - you'd be wrong! The beauty of the 3500 series is it has a main diverter valve, this allows you to switch all the power to one side

of the spa. So when you are in the mood for a deep tissue massage you can turn the diverter, jump in to your lounger seat and have a beautiful hydrotherapy experience. This spa is also supplied with a double hood change, LED mood lights, a spine chair for your back and neck, a reclining water jet, a built in DVD player the 400w speaker system and a built in heater with a 300w heat pump. This spa by Arden Spas is
