Description

Hi, I only bought this bike a few weeks ago it was going to replace my daily hack a fjs600. I have quikly realised if I keep this as a daily hack I am going to loose my licence very quickly! I own a mv f3 800 superbike so this satisfies my speed and Sunday's out. Basically the fazer 1000 is not fit for my needs I would love to keep it to tour on but can't afford three bikes. It's super clean very low mialage for one of these under 10000 backed up by a completely comprehensive collection of mots all of them! You can tell this bike has been loved all its life years mot on it and lengthy tax. Tank cover and tank bag givi rack and box these are free if you pay the full asking if not extra for both to be discussed you defiantly won't find better bikes this clean don't come up to often. Only down side is the tiny dink in the tank I really can't figure out how someone could have done it but that's the 1 fault this bike has. I suppose if you are reading this you know all about the bike if not read reviews all glowing please any questions offers etc call Matt 07939581288 079395812...(click to reveal full phone number), 3 Owners, 2 keys, Centre stand, Electric start, Exhaust - Steel, Luggage rack, Panniers, Tank pad, Top
