1998 Rover 214i in beautiful condition inside and out. Only 27,600 genuine miles. Purchased from original buyer 3 years ago with only 9,000 miles on the clock. Kept garaged and regularly serviced by them from new. Used for daily commuting to work since. Genuine Rover alloy wheels with nearly new tyres on each corner. Recent exhaust and radiator as well. I have both the original keys with remote locking and all the paperwork since new. Only selling as I was keeping it for my daughters first car but the insurance is ridiculously expensive as it is a 1.4 litre. I have also just acquired a brand new company car. First to see will!
