This would be an awesome first road bike or ideal for the London to Brighton ride. It has been built up with various good quality parts, has a campagnolo vento front wheel, shimano rear, fsa compactcranks, campagnolo brakes. 9 speed shimano gears, aluminium frame with a carbon fibre fork. It weighs in about 9kg so pretty light. You wont get a bike like this for the price in any shops or on the cycle to work scheme so grab a bargain. Im only selling as its not quite the right fit for me. Its fully working and good to go. I usually ride it about 15 miles at a time and it has no issues at all. Buyer.
