This is the naked version of the half-faired Yamaha XJ6 Diversion. It's a sensible budget middleweight and an exciting mini streetfighter in one. This Yamaha XJ6 is a superb machine, comfy, practical and lots of fun too. It's a lot of funky middleweight fun for little money and comes with a decent level of equipment. There's a multi-function LCD dash and preload adjustment for the rear shock and the handlebars are adjustable back and forward by 20mm. Comes with all three original keys, Yamaha colour coded top box and an upgraded sports exhaust. This bike is a lot of fun for everyone who has a small monthly!
