Hi, Here, I have my 2 year old Sony Soundbar. It is in fairly good condition with great sound to compensate for the lack of sound quality on new TVS. There is a little tear on the speaker fabric but this is not very noticeable nor does it affect the sound, see pics. The soundbar comes with the wired Subwoofer and the remote control. I will also chuck in an Optical Cable. Features include; 60W output Virtual Surround Sound Bluetooth Bass/Treble Control Optical Input Please note, that this model does not have a display or a HDMI socket, the sound must be controlled via the remote provided and is not compatible with any other remotes. Reason for selling is an upgrade to 5.
