

Counselling and Therapy Service in West London W14 (West Kensington)

Location **London, London**

I provide counselling and therapy services in West London W14 on a confidential basis to a variety of people facing a variety of challenges in their lives.

Many of my clients come to me because they face:

- Relationship, sex and family issues, anxieties and breakdown
- Work and professional stress, anxiety and crisis
- Alcoholism, drug dependency, sexual, relational and other addiction problems
- Eating disorders, including anorexia, bulimia, binge eating and other food dependency issues
- LGBT, minority and other discrimination issues
- Self-confidence, self-esteem and anxiety-related issues
- And many more.

I have met people who have been shamed and stigmatised because of their sex, gender, their ethnicity, their culture, race, religion, disease status, education and moreover, because of the nature of their issues. Many also face misunderstanding within their social contexts when grappling with the symptoms of drug, alcohol, food, relational, gambling and work addictions. That's why I started to practice.

My ethos is simple. It's about:

- Serving all communities and all people in a non-judgemental way

- To provide a safe and supportive environment for my clients, to help them to explore their issues and integrate their experiences of seeing the world through their own eyes, to help them to find their own path and to help them to achieve their goals and dreams.

In short, I believe in supporting people in their journey towards mental, emotional and spiritual wellbeing and in helping them to find their own path and to achieve their goals and dreams.
