This 'old style' 32" flat screen Stereo Panasonic Quintrix TX-32PK1 TV is in excellent condition and full working order. The picture quality is very good, havig a 100hz Digital Scan System and has a built in digital tuner. 'Set-top' type boxes, like Virgin or SKY or a PVR/DVD/Blue Ray player or 'Freeview' box can be plugged in to one of the two SCART sockets, which are located alongside the normal TV Aerial socket. Auxiliary controls and inputs, including an S-VHS socket, are accessed via a drop down flap at the bottom/centre/front. The TV measures 80cm(wide) x 35cm(high) x 57cm(front to back) and, as it's very heavy at c50kg, will need two strong people to move (I can help with putting it into your car/van). Comes with the original remote and owners manual from a similar 28" TV which has the same operation features, both of which are also in excellent condition. Only £.
