Here is my stunning SRI 150 with the sort after exterior pack  
 Millage 94k (daily driver) MOT JAN 17 full service history  
 This car has had no money spared on it in the 2 years I've had it all known common faults have been fixed in that time,  
**GOOD BITS**  
 New engine in dec14 a 09 plate 150 engine with 65k  
 New turbo in dec 15 gearbox rebuilt in Jan 2016  
 New cam belt dec16 flywheel and clutch Dec 2016  
 New Alternator July 2016  
 Swirl valves removed and modified one put in place  
 As you can see all common faults have been sorted with paperwork, the only bad point to this car is a knocking coming from front drop links, this car has been lowered by 40mm i believe  
 I also have a lot of spears that could come with the car at the right price including turbo and inlet manifold  
 Genuine reason for sale i just need a bigger.
