This is an 21 inch frame mountain bike with front suspension. The bike needs some repairs doing to it, mainly the rear mech/derailleur and some general maintenance such as new brake pads/cables and degreasing. Everything else is in good working order, recently had new tyres fitted as well. It also has two locks which I have lost the keys for so they will need removing. All it really needs is a good full service and some new parts and it'll be ready to ride again. Does have some damage to the paint and general wear and tear as well
