Brand new box Dermawand These wands are amazing I've had my own for about 3 years and I can honestly say its made a massive difference in the appearance of my skin and also lines and wrinkles and also sagging skin on neck and sides of nose and mouth alot less noticable. I think that is down to what the wand is doing and also how its improving the performance of my skincare making it much more effective. They are so easy to use and only a couple of minutes a day INITIALLY then every couple of days you will see the results. Very easy to use and no precise action required in order to see results with continued use can be used while watching the TV

Also great for spot prone skin. Its also great to make all skincare products you use much more effective

Derma Wand NEW

1 x English Manual I would advise you use it twice a day for a about a week and then once a day or every couple of days to maintain. I'm not sure whether its the original derma wand or not but it does exactly the same. Box is slightly squashed but this doesn't effect the wand as its securely fitted into box. It is EU 2 pin plug so you will need a plug converter for UK which i can provide free if needed
